

Hillclimb & Sprint Report for Tuesday 16th September 2014 SACC Meeting

Speedsport magazine; The latest edition (#4) is available on the Championship website.

The SSHC Championship IT services have now been moved to a new provider – we hope to see some improvements in the website along with improved reporting of Championship results.

The Championship committee held an additional meeting in July to discuss and review the Sprint Championship scoring system. With the exception of expanding the Classics and Thoroughbred section (and any MSA-driven safety requirements), the committee agreed to freeze the regs for both Championships for three years to develop stability.

Entry levels at events remain similar to those from 2013; some events improving, some reducing slightly. There is one remaining round of each Championship still to go; Doune Hillclimb this coming weekend, and Boyndie Sprint the following weekend.

Steve Marr

Chairman, Scottish Hillclimb and Sprint Championship
